Meknes

Professional Summary

- Dynamic IT professional with 3+ years of experience in systems administration, software development, and technical support. Skilled at diagnosing and resolving complex technical issues, optimizing system performance, and implementing scalable solutions. Proficient in Python, JavaScript, SQL, and AWS. Recognized for strong analytical abilities, meticulous attention to detail, and a proven track record of delivering high-quality results in fast-paced environments.

Professional Experience

Data Science Intern

meknes

user Intern

05/2026 – 05/2026

- Designed a Python-Pandas pipeline to process and cleanse large datasets, enhancing data quality and accelerating analysis workflow.
- Built interactive dashboards with Power BI to visualize key insights and trends
- Applied machine learning models to predict outcomes, improving accuracy by 15%
- Collaborated with team members to define project requirements and deliverables

Full Stack Developer (Project)

meknes

user Intern

05/2026 – 05/2026

- Used Git for version control and collaborative development
- Optimized application performance, reducing load time by 30%
- Implemented REST APIs for data management and integration
- Designed and developed a responsive web application using React and Node.js

Education

Ensam Meknes

Master's in Computer Science

05/2022 – 05/2027 (Expected)

GPA: 4

Technical Skills

- Programming Languages:** Python, JavaScript, Java, C++, SQL, PHP
- Data & AI:** Pandas, NumPy, Scikit-learn, TensorFlow, Data Visualization
- Cloud & DevOps:** AWS, Firebase, CI/CD, Kubernetes (basic)

Technical Projects

Sales Data Analysis & Dashboard

Sales_Data_Analysis_%26_%20Dashboard.git

- Collected and cleaned sales data using Python (Pandas, NumPy)
- Performed exploratory data analysis to identify trends and patterns
- Built interactive dashboards using Power BI to visualize KPIs

Customer Churn Prediction Model

Customer_Churn_Prediction_Model.git

- Built a machine learning model using Scikit-learn to predict customer churn
- Preprocessed and transformed data (feature engineering, normalization)
- Evaluated model performance using accuracy, precision, and recall

Leadership & Community Impact

Certifications

- Google:** Google Data Analytics Professional Certificate (05/2026)
- Udemy:** Python for Data Science and Machine Learning (05/2026)
- Amazon Web Services (AWS):** AWS Cloud Practitioner Essentials (05/2026)
